### EVALUATION

Evaluation is done throughout the programme between the trainer and the client. This evaluation will measure positive changes and learning outcomes. It starts with a needs analysis, continues throughout the training and ends with the 'cold evaluation' 3 months after the training finishes.

A development plan is created at the end of the training to support continuous learning. The 'cold' evaluation is carried out to measure the implementation of the new skills and to see if other modules are necessary.

In case of financing by CPF, the training will be certified by the BEST (Business English Skills Test - RS535).

### TRAINING METHODS

This training is tailored to your needs and organisation. This is why we start with a telephone interview or an on-site meeting to analyse your expectations.

The sessions are built around interactive activities and on-site role-playing based on the clients' concrete experiences. The emphasis is on an atmosphere and setting that is conducive to learning.

### THE ADDED VALUE

+ An individual and personalised study programme, in addition to the training,
